

# UNDERWRITERS LABORATORIES®

## Battery Safety Science Symposium

August 11, 2021

### Session IV

### What's New in Standards and Regulations

Mr. Howard D. Hopper

Global Regulatory Services Manager

UL

### *What's New in ESS Standards and Regulations?*

This session will take a quick look at recent protection strategies being considered for the 2024 International Fire Code and NFPA 855 Stationary Energy Storage System (ESS) standard.

### About the speaker

Mr. Howard Hopper is a Fire Protection Engineer with over 30 years of experience at UL LLC and is a Corporate Fellow in the William Henry Merrill Society. He coordinates UL's ICC and NFPA code development activity, including developing fire safety requirements in innovative areas such as lithium-ion energy storage systems and 3D printed building construction.
