

UNDERWRITERS LABORATORIES®

Battery Safety Science Symposium

August 11, 2021

Session IV

What's New in Standards and Regulations

Mr. Brian O'Connor P.E.

Technical Services Engineer

National Fire Protection Association

NFPA 855, Standard for the Installation of Stationary Energy Storage Systems

This presentation will contain a high-level overview of the requirements contained in the 2020 edition of *NFPA 855, Standard for the Installation of Stationary Energy Storage Systems*.

About the speaker

Mr. Brian O'Connor is an Engineer in the Technical Services department at the National Fire Protection Association (NFPA) and President for the New England Chapter of the Society of Fire Protection Engineers. Brian is a professional engineer registered in the states of Texas and Massachusetts. He earned his Bachelor's Degree in Mechanical Engineering from Rowan University and a Master's Degree in Fire Protection Engineering from the University of Maryland. At NFPA, he focuses on topics such as aviation, portable extinguishers, water-based fire protection, energy storage systems and health care facilities.
