

UNDERWRITERS LABORATORIES®

Battery Safety Science Symposium

August 11, 2021

Introduction to the Symposium

Closing Remarks and Acknowledgements

Dr. Judy Jeevarajan

Research Director - Electrochemical Safety

Underwriters Laboratories Inc.

About the host

Dr. Judy Jeevarajan is the Research Director of Electrochemical Safety for Underwriters Laboratories, Inc. With over 25 years of experience in the area of batteries and a primary focus on lithium-ion chemistry, she specializes in battery safety research including safety trends in aged li-ion cells and modules, thermal runaway propagation in lithium battery systems, characterizing fire and fire suppressants for li-ion batteries, and consumer battery safety.
